

## **Meadowlands Fishing Permit Issue**

1. Fifteen Meadowlands fishing permits are issued in the first week in August (Meadowlands rule).
2. All resident permits are issued at the discretion of the Clerk.
3. Residents can apply to be on the fishing permit list at any time.
4. All residents on the list at the beginning of June, existing and new, are considered for a permit each year.
5. If the total number of residents on the list exceeds the number of permits available then the permits will be rotated fairly round the list (so those who have had a permit the longest are not given a permit this time).
6. Permit holders who do not get a permit for the following year are invited to request to go back onto the list for next year. Note – they do have to make a formal application.

This Policy was adopted on 1<sup>st</sup> April 2015
